

HAWAII WiRE – Women in Renewable Energy

Aloha Colleague,

Women in Renewable Energy (WiRE) is a network of women working for a sustainable Hawaii, powered by clean energy. The organization holds monthly WiRE events that feature panels of experts speaking on a variety of topics. The goal is to educate women on a variety of technical subjects, provide opportunities for female speakers, and spark partnerships and collaboration by strengthening the network of energy professionals in Hawaii. Since our first event in January 2011, over a hundred women in the industry have attended WiRE events such as New Administration and New Policies, Green Workforce of the Future, and Utility Regulation: Changing the Rules to Change the Game. Currently, WiRE is in the process of registering as a 501(c)(3) non-profit organization, which means that your donations are tax-deductible. The money we raise goes to events centered on clean energy, and this year's fundraising goal is \$10,000.

By participating as a sponsor, your organization will benefit from extended exposure through educational events and outreach efforts with members of WiRE. Your organization can make a clear investment in the support of women engineers, scientists, teachers, attorneys, and policy-makers who are making an impact in renewable energy for the State of Hawaii.

We have three levels of sponsorship, as detailed on the enclosed sponsorship commitment form. You can select the level of participation that best meets your needs, and be secure in the knowledge that your sponsorship will be used to help WiRE fulfill our mission.

We will be happy to answer any questions you may have. Please return your sponsorship commitment form in the enclosed envelope or fax it to 808-237-5059. Thank you in advance for your willingness to support the efforts of WiRE in making a difference in Hawaii's clean energy future.

Sincerely,

Dawn Lippert
Chair, WiRE Board of Directors
